Vadistanbul

EVER GREEN,

On one side you have Istanbul's breathe, the Belgrade Forest, evergreen

at each and every season of the year. On the other side you have

the Sadabad River, flowing with fresh water coming from

the Bosphorus.

And above, you have the starry night sky.

This is Vadistanbul Terrace. Here, silence and tranquility

is standard. Come and take your place

in this unique life with its numerous privileges.
